RejectedRecruiter(#id, iduser => User, date: date, status: enum("rejected"))

RejectedOrganisation(#id, SIREN: varchar(9), name: varchar(42), type: varchar, headquarters: text, status: enum("rejected"))

Maquettage

Envoi d'un mail

Enfin, nous avons essayé d'envoyer un mail à chaque création de compte et chaque acceptation de ce compte en tant que recruiter/admin. Néanmoins, Google n'inclut plus la possibilité d'accepter des applications non sécurisées d'accéder à un des comptes donc nous n'avons pas pu envoyer de mail.
